

# DLP Graphics Price List 2011

I offer my pictures for sale as framed prints. Below is a table with sizes and prices. I am trying to offer a size and price for every budget. Sizes are listed first with the frame size, then the approximate size of the image. I print my pictures with a "virtual mat" around them, then use a single mat when framing, giving the print the double mat appearance. This allows me infinite colour range for the inner mat, and the ability to print the picture name on the inner mat. The prices listed below are in Canadian dollars and include HST. Prices shown include non-glare glass for medium, large and panorama sized prints. The smaller ones are made with whatever appropriate sized pieces of glass I have available.

For 10+ copies of the same print there is a 10% discount.

I also have matted northern lights prints sized to fit 8"x10" and 11"x14" frames for sale at UFA for \$20 and \$40.

Size	Frame ~ Artwork Size	Framed Price (tax included)	Available Frames
<b>Small</b>	13x16 ~ 6.5x10	\$100	3/4" or 7/8 wood or 5/16" black or pewter metal
